3/31 – INSPIRE SCHOLARSHIP – FALL SEMESTER

- The INSPIRE Scholarship is designed to support STEM majors that are Pell eligible. This scholarship will cover unmet financial need for students (on average \$4800/year) for two full years (total average award of \$9600). Participants will need attend weekly study hall, meet regularly with an assigned mentor, and participate in multi-semester research and prototyping course series called the Innovative Solutions Course series. This course series will consist of three 1-credit lab-based courses. This courses series will immerse students in a multidisciplinary research project, training them for future careers that increasingly require interdisciplinary collaboration. Within the course, students will form interdisciplinary teams of different STEM disciplines, and be trained in research methods, modern prototyping techniques, and technology startup fundamentals. Students will solve modern real-world interdisciplinary challenges within the courses, and students can advance their solutions through either scholarly research or entrepreneurship at the completion of the program. These courses will run the first three semesters of the program, and meet on Friday's from 1:00 – 4:00 PM. To be eligible, you must have and maintain a 3.0 GPA, be Pell eligible, and have at least two years of school before graduation.

5/1 – COLLEGE OF SET SCHOLARSHIP – FALL SEMESTER

- Applicants must be fully admitted to UT to be considered for this scholarship. Student must be a declared SET Major NO LATE APPLICATIONS ACCEPTED.

5/1 – HUBER COLLEGE OF SET SCHOLARSHIP – FALL SEMESTER

- This scholarship is for a female with a declared major in any College of Science, Engineering or Technology field. Student must have a minimum 3.0 GPA and be in her Junior or Senior year.

5/1 – WANDA & DALE BARTON MATHEMATICS SCHOLARSHIP – FALL SEMESTER

- This scholarship is for students entering their Junior or Senior year with a minimum 3.0 GPA who has completed Multivariable Calculus (MATH 2210). Applicants must be a Mathematics Major, or a Math & Computational Mathematics Major with an emphasis in Actuarial Science, Data Analytics, or Scientific Computing.

A photograph of four young women standing outdoors in a garden-like setting. They are dressed in traditional Native American regalia, including feathered headdresses, beaded necklaces, and patterned dresses. The woman on the far left wears a yellow and blue dress with a yellow bag. The woman in the center wears a blue and white dress. The woman on the far right wears a brown and white dress with a yellow sash. The background features green trees and a building in the distance.
